

DOUBLE MODE POWERFUL TYPE SF-600

Full-Automatic dual-mode wireless glue binding machine

similar glue groove structure design

7 inch industrial touch screen

Increase the fast glue binding mode to improve gluing speed

All in one large glue tank, effectively solve the problem of coated paper glue off the page

CONFIGURATION AND PARAMETER

Main Feature

1. Brand-new design of one-piece glue tank: double roller wheels and side roller wheels structure, firstly apply the grooved spine glue to ensure that the glue can penetrate into the inner grooved space. After the side glue, the spine glue is applied again. The glue is perfectly integrated, the glue layer is fuller and firmer
2. Dual-mode full-automatic glue binding design: two full-automatic glue binding modes, which can be freely selected according to actual glue binding requirements, and can be switched with one key, which can increase the efficiency by up to 50%
3. Two-way double screw rods: the trolley adopts a two-way double screw rods clamping structure, which is not deformed or twisted during clamping, and is durable.
4. 24 teeth sun cutter and small milling cutter: high-power milling motor, milling spine clear, uniform slotting, ensuring glue space, and firmer glue binding.
5. Humanized design of book placing table: the humanized design of book placing table allows easy access to the contents and improves work efficiency.
6. 7 inch industrial-grade touch screen: good interaction with computers, intuitive and convenient operation, user-friendly design, easier use, more stable programs, and more user-friendly operation.

Technical Parameters

Model	SF-600
MAX Binding Size	420mm
MAX Binding Thickness	60mm
Glue Melt Time	About 45 minutes
Binding Speed	300 books/hour
Hour Milling Cutter	24teeth sun cutter +small milling cutter
Glue Roller	Independent side glue + spine glue
Auto Side Glue	Yes
Vacuum Structure	Wind wheel
Binding Method	Manual & automatic + Fast mode
Display	7 inch touch screen
Book Spine Angle Adjustment	Classic knob
Milling Folding	Tri-fold
Power	220V/2000W
Machine Size	1580*610*1035mm
Machine weight	215KG/262KG
