

VARIABLE FREQUENCY HIGH SPEED TYPE SF-600SP

Full-Automatic frequency conversion high-speed
glue binding machine

book finished in 7 seconds 420 books per hour

7 inch industrial touch screen

digital display of spine forming square or round corner adjustment

CONFIGURATION AND PARAMETER

Main Feature

- 1、Frequency conversion technology, fast speed trolley working, precise stop, the fastest glue binding speed can reach 450 books/hour
- 2、Dual-mode full automatic glue binding design: Two automatic glue binding modes can be switched with one button according to the glue binding requirements, and the quick loading mode only takes 8.6 seconds per book
- 3、The function of spine forming digital display: the height control of the clamping table is more accurate, the selection of the spine molding effect is more convenient, and the core memory function is provided.
- 4、7 inch touch screen: sensor, motor automatic detection design, built-in multiple counting, engineer mode and other functions
- 5、Two-way double screw rods: the trolley adopts a two-way double screw rods clamping structure, which is not deformed or twisted during clamping, and is durable.
- 6、18 teeth sun cutter + small milling cutter: high-power milling motor, milling spine clear, more uniform groove depth.

Technical Parameters

Model	SF-600SP
MAX Binding Size	320mm
MAX Binding Thickness	60mm
Glue Melt Time	About 25 minutes
Binding Speed	450 books/hour
Hour Milling Cutter	18teeth sun cutter +small milling cutter
Glue Roller	Independent side glue + spine glue
Auto Side Glue	Yes
Vacuum Structure	Wind wheel
Binding Method	Manual & automatic + Fast mode
Display	7 inch touch screen
Book Spine Angle Adjustment	Knob with digital display
Milling Folding	Two-fold
Power	220V/1500W
Machine Size	1310*600*945mm
Machine weight	204KG/243KG
